26.3.95.

Divers: J. ROWS, H. ROWS, A. PATTON

Dive: 13.3 meters 53 minutes.

Try auto punch Cor. Very useful. Suggested Rich work up a valve controlled air left to move sand from underneath drums, rather than with the head in the

sand. Air bagged, no 9, no 18

and run out of air before we did drum no 23.

Just submerged in the sand.

(108) ~~112~~ 2-4-95

Divers: J. Rowe, L. Rowe.

Dive: 133 meters 50 minutes

No work done. Beautiful
dive. Water very clear.
Delivered "Dive" brochures
to cars, and divers by
Rich Poole, Roy Bissor, Jon
& Lesley Rowe. Pat delivered
brochures yesterday 1-4-95.

Divs Set up an article for
Sun Herald - Roger & I
lost their masks in the bay.
Big Seas! So finished up
photography in Cloverly Bay.
And not an article published
in the Sun Herald on the 18th
June!

But published on Sunday
25 June. Good story.

Saturday 24th June 1995 (120)

Divers: Tina Penney, Roger Booker

John Rowe

DIVE: What a disaster!

Big seas covered up the trail
at the sand dune. Picked up
Chan from Drown to 23
and took over to where Chan
disappeared in sand. R.B. not on
second dive. Eventually

hooked up newspaper blind
cord to submerged Chan at
No 9. Left left bags after

first dive of 11.7M 29 mins (116)
Second dive 13.5M 108 (117)
minutes.

Sunday 25th June 1995.

~~(121)~~
(118)

WORLD RECORD DIVE.

DIVERS 118!

Dived with Jim Metee,
Lobby & Ernst.

Cart number fine. Jim
had a lot of problems
budgetary, equipment.

Great day. approx \$2000
raised for the club.

(116)

Saturday 1 July 1995

~~(122)~~

(119)

DIVERS: J. ROWE

DIVE: 9.8m. 73 MINUTES

Finish off trail. Took spare chain to re connect with chain at drum at 9. New chain $3/8"$ for early submerged.

Still more work to do, but cord at least gone.

Date : ?

~~123~~

43 Meters

DIVERS: JOHN & ROWS.

October 7 1995 (124) (127)

DIVS: 70 minutes DOOTH 143M.

DIVONS: John Rowe.

Well, what a night. On Tuesday
26 September, the sea rose in anger
beyond. Waves broke at the entrance
to G.B. The Fishing club lost eleven
boats! Rocks cover the foot part
The breakwater lost at least 12
enormous boulders. So what shape
is the foal in? All drums
were moved below the highest part
of the sand ~~down~~ banks. Drum 110
& which we could never recover
appears to be the anchor for the foal.
I decided not to move it. 3/8"
Choi still remains hidden. at the
half now mostly boulders remain.
Next day (1) locate 3/8 Choi at 7-8,
(2) relocate 9, 10, 11 above the sand
~~down~~ bank (3) check all sheaths. (4)
Move 16, 17, 18, 19, 20 into a less stressed
line.

18 November 1995. (125) (128)
