s

Moved spare drum at (5)
to approximate position of (7)

New chain needs to be
joined to (7) and buoy
placed on (7) as it is
subject to sand cover at
its present location.

Trail covered with sand to
1/2 way between (9) & (10)

Trail joined up with ~~orange~~
orange com. Chain needs reeling
from (10) -> (9). Tried to
locate old drums at right of
(10) but no success due to
heavy hull. Unable to locate
(14) via the "top" route.
More work to be done

(3116)

2900 December
2008

DIVE: 14.4 meters 47 minutes

DIVERS: JOHN ROWE

Moved Chain at (10) to

(15) rejoined about midway
between (14) & (15). Shackled

to (15). Moved towards buoyed

(16). Buoyed up to locate
on the help river.

Noted chain is broken

between (23) → (24) replace.

314

30th December
2008.

DIVE: 15.2 Meters

42M.

DIVERS: JOHN ROWE

Collected two buckets of chain beyond the wave break.

Attempted to move two buckets with one lift boy and one bucket's handle was broken off. Took 1 bucket

of chain to (15). Connected across bulk river without locating (16). Shackle at (17) needs to be replaced.

Left second empty tank bucket with new chain.
